

# Warning Indicators Panels

**VisionMark, Inc.**  
*Exclusive North American distributor  
 for the fire apparatus industry*  
 2309 Industrial Drive, Sidney, OH 45365  
 Phone: 937-492-3100  
 Fax: 937-492-3108

Give your vehicle a facelift with Data Panel Warning Indicator Panels. Get installation, termination and ordering efficiency by reducing parts count and mass termination. Each panel offers custom circuits, colors, geometry and symbology with high bright long life LEDs, and the highest quality graphics, produced in-house.

## Specification

Data Panel's engineering staff works with customers to fully understand each application. Only then do we document a complete set of design, development, and performance specifications

## Design

Data Panel performs all electrical design and board layout in house – controlling every aspect of the development process.

## Prototype

When required and/or requested, quick turn production intent prototypes can be developed to prove the design application.

## Production

Our manufacturing group has a broad range of production experience and personnel. Just-In-Time deliveries support numerous rescue vehicle manufactures.

## Field Support

Field Service personnel are always available to provide answers, service, and support for our customers and their customers!
